

This Festschrift is dedicated to our colleague, mentor and friend Maciej Koutny, on the occasion of his 60th birthday. It includes 20 contributions by 35 authors from across the world, ranging from their personal encounters with Maciej, to philosophical discourses on the nature of causality, to technical papers on Maciej's favourite topics, in particular Petri nets and concurrent systems. Causality is a prominent unifying topic of Maciej's research, and it was selected as the topic of this Festschrift.
